

Vehicle Moving

Q: This is a driving video. Please determine whether the vehicle in the green box shows subtle movement during the video. Answer Yes or No.

Relative Velocity

Q: This is a driving video. Please determine which vehicle is moving faster based on their motion over time: the vehicle in the green box or the vehicle in the blue box. Answer Green or Blue.

Ego Motion

Q: This is a video recorded by a moving camera in an indoor scene. The target object is the piano. Please determine the final position of the target object relative to the camera. Is it Front-right or Front-left? Answer Front-right or Front-left.

Passage Feasibility

Q: This is a video of a vehicle and traffic cones placed near its driving path. Please predict whether the vehicle can pass the cone-constrained area without touching any cone. Answer Yes or No.

Basketball

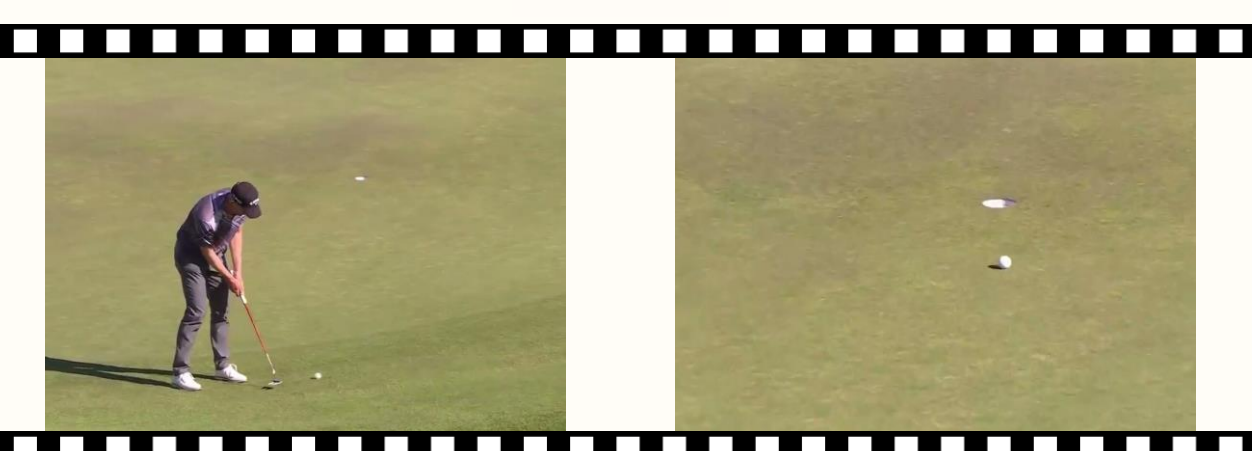

Q: This is a video of a basketball shot. Please predict whether the basketball will go into the hoop. Answer Yes or No.

Soccer

Q: This is a video of a soccer free kick. Please predict whether the ball will go into the goal based on its trajectory, ignoring the goalkeeper and any defensive interference. Answer Yes or No.

Golf

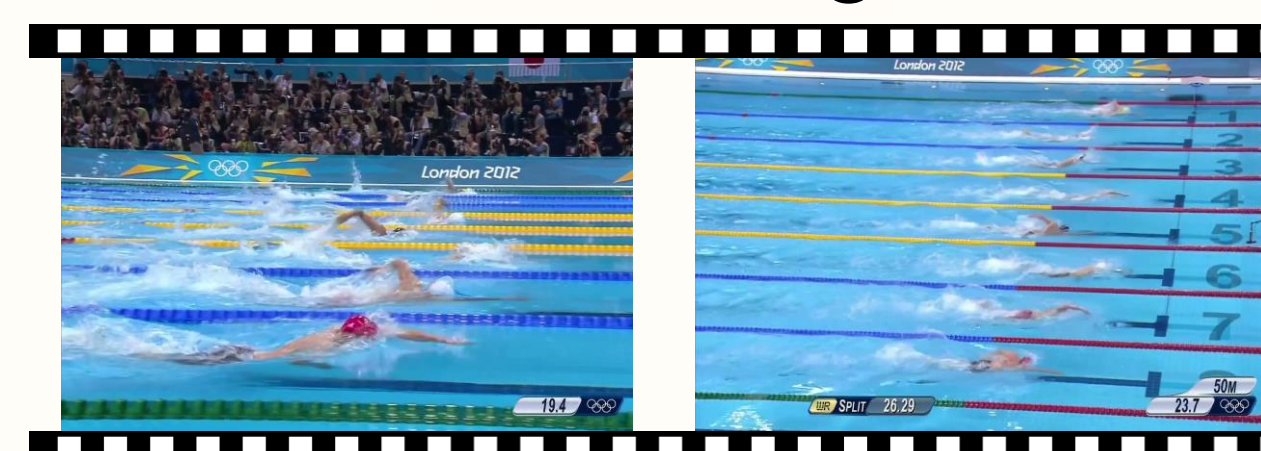

Q: This is a video of a golf shot. Please predict whether the golf ball will go into the hole based on its observed trajectory. Answer Yes or No.

Billiards

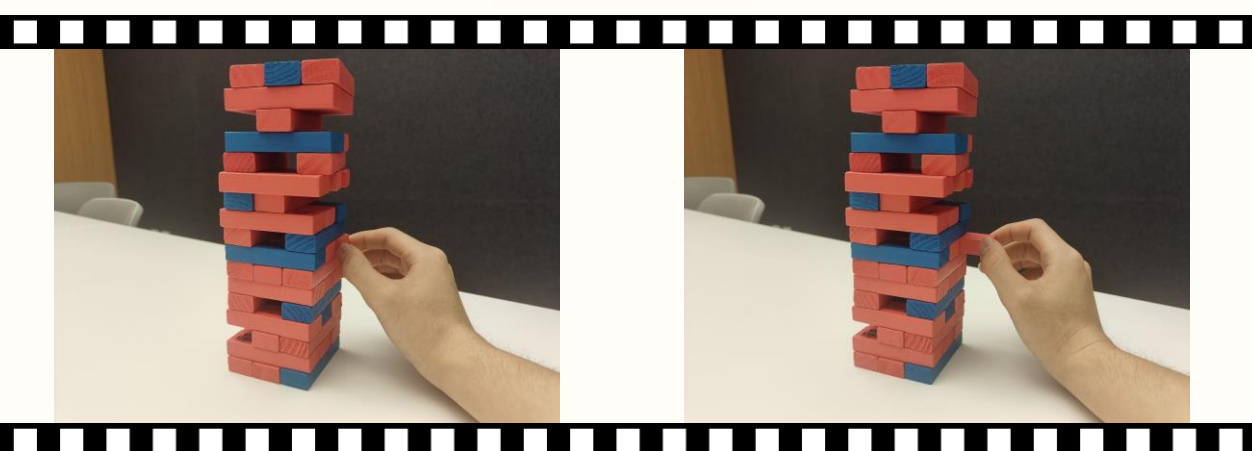

Q: This is a video of playing billiards. Please predict whether the target ball will go into the pocket based on its current trajectory. Answer Yes or No.

Swimming

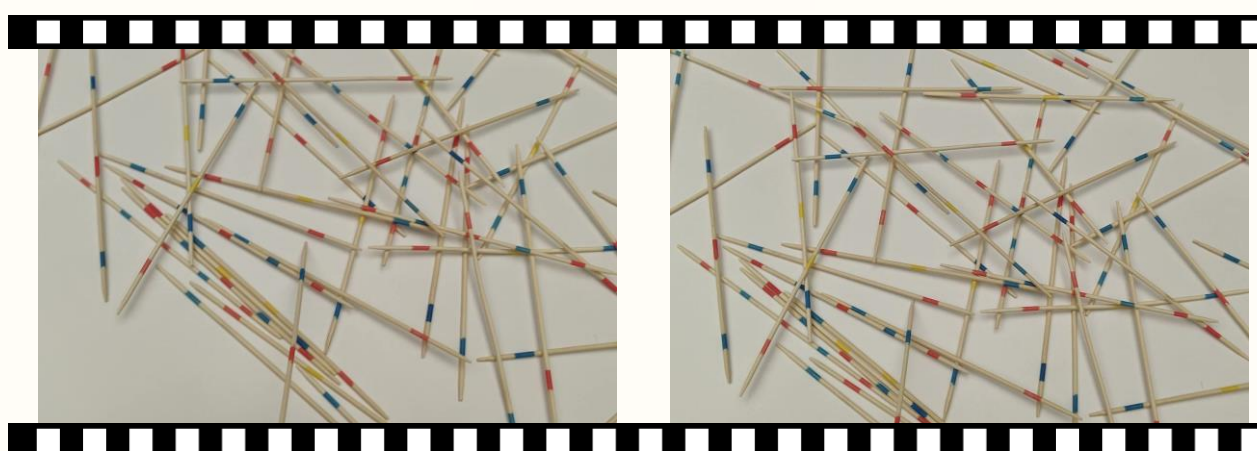

Q: This is a video of a swimming race. Please determine which swimmer will reach the finish line first between lane 4 and lane 6. Answer 4 or 6.

Jenga

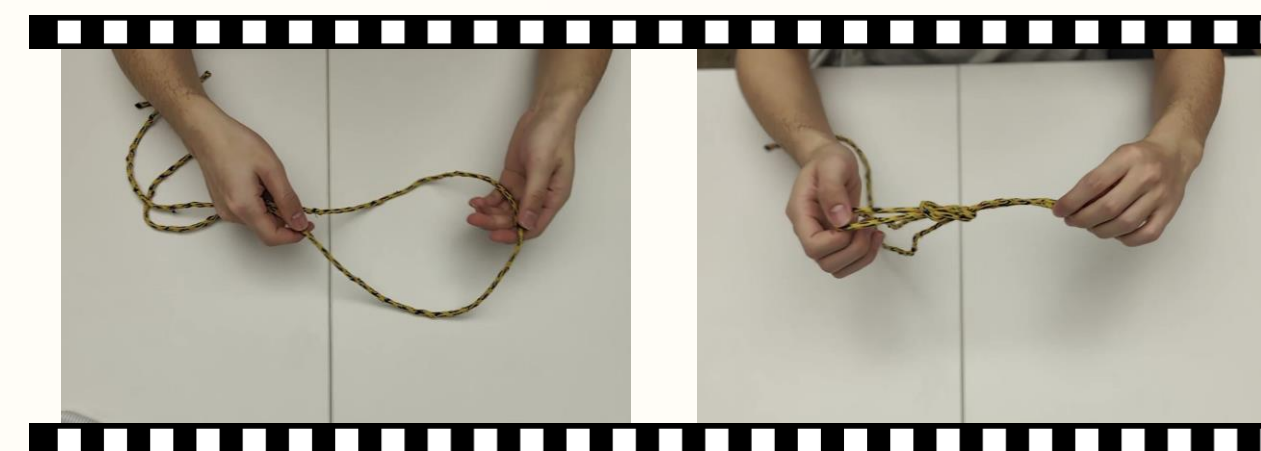

Q: This is a video of a Jenga game. Please predict whether the tower will remain stable after the block that the hand is trying to pull out is removed. Answer Yes or No.

Mikado

Q: This is a video of a Mikado game. Please predict whether the stick indicated by the pointing stick can be picked up without touching any other sticks. Answer Yes or No.

Knot

Q: This is a video of knot manipulation. Please determine whether the knot is a slip knot (can be undone by pulling one end) or a fixed knot. Answer Slip or Fixed.
